DETAILED ACTION

1. This Office Action acknowledges the applicant's response filed 6 May 2009.

Claims 1-5 are pending in the application.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

3. Claims 1, 2, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Wisdom et al (US 4,076,117).

1: Wisdom discloses a package 10 comprising a sleeve 11 of essentially parallelepiped shape with an opening (as shown), four longitudinal walls 14-17, first stop tab 18 extending from and at least partially separated from walls 14 and 16; and a slidable insert 12 with first locking edge 32a. Wisdom functions as claimed.

2: Wisdom discloses upper wall 14, lower wall 14, first sidewall 16, second sidewall 17 on sleeve 11, with the first hole being the opening shown to the left of tab 18 in Figure 1. Further, Wisdom discloses insert 11 with bottom part 23 and first side part 24 arranged as claimed.

4: Wisdom discloses second stop tab 19 and second locking edge 32b arranged as claimed. Wisdom functions as claimed.

Allowable Subject Matter

4. Claims 3 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

6. Applicant's arguments filed 6 May 2009 have been fully considered but they are not persuasive.

Applicant's position hinges on the assertion that Wisdom does not disclose a stop tab at least partially separated from the walls. Applicant argues that the portion 18 of Wisdom is an integral structure. However, applicant's claim does not preclude an integral structure; the claim only requires that the stop tab be "at least partly separated". Tab 18 of Wisdom projects inward and away from the bottom and side walls and the inner extension is not connected to the walls; therefore the tab 18 is "at least partly separated" from the walls.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
